

PACT Process

The first step in this process was to develop a collaborative team, the I-70 East Preferred Alternative Collaboration Team (PACT), comprised of state and federal agencies, advocacy groups, and stakeholders from Adams County, Aurora, Commerce City,

and Denver. Government agencies have identified their PACT representatives and individuals representing corridor businesses, and residents have been selected at workshops that took place on July 14 and 16, 2010, respectively.

Members of the PACT have called the process: “deliberate,” “thoughtful,” “very conscious of neighborhoods,” “inclusive,” “working to make things better.”
